JSOCC DISTANCE LEARNING COURSES

COURSE #	COURSE TITLE	PURPOSE
ADMIN 000	Welcome to JSOCC	The Welcome Course provides computer requirements (system, monitor and plugins) and setup to complete the DL JSOCC. It also provides a guide on how to use DL JSOCC.
ADMIN 100	JROTC Overview	The JROTC Overview course will give future and existing JROTC instructors an overview of the mission, goals, and expectations associated with being an instructor for the JROTC program.
ADMIN 101	JROTC: An Administrative & Operational Overview	Introduction and definition of the JROTC Administrative and Operational Overview Course to include Public Affairs and Communities in School.
ADMIN 102	Instructor Management	The Instructor Management course will provide contacts at the Instructor Management Division, explain forms and their usage, describe hiring procedures and staffing authorization, provide details about the continuing Instructor qualifications, and describe disciplinary actions.
ADMIN 103	Quality of Life Resources	This course provides an overview to JROTC instructors of the quality of life resources that are available to them. Quality of life resources include: medical benefits, educational benefits, and crisis management methods.
EDU 100	LET Overview	This course will give a general overview of the LET Curriculum components.
EDU 101	Quantum Learning	The Quantum Learning course provides Junior ROTC instructors with the information needed to promote student development by introducing techniques proven to help students learn more, in less time, with greater retention. It includes Quantum Learning CD Completion Exercise and Quantum Learning Lesson.
EDU 102	Curriculum Review	The Curriculum Review course provides Junior ROTC instructors with the information needed to remain adaptable in the ever-changing world of education, and introduces active learning strategies to help instructors fulfill the Junior ROTC mission, purpose, and objectives.
EDU 103	Emotional Intelligence Overview	This course provides an overview to JROTC instructors of emotional intelligence,

			Winning Colors, Personal Skills Map, and Success Profiler.
EDU 104	Unlocking Your Potential		This course will provide an overview on the Unlocking Your Potential (UYP) package and how it can be used to address problems that students have with self-esteem.
EDU 105	You the People Overview		This course gives an overview to the You The People Program and how to use it in the JROTC program.
EDU 106	High School Financial Planning Overview		This course describes the National Endowment for Financial Education (NEFE) High School Financial Planning Program® so Junior ROTC Instructors can see the benefits of incorporating the program into their curriculum.
MGMT 101	Supply		This course provides an overview of Cadet Command's Supply procedures.
MGMT 102	Risk Management		This course explains how to conduct a Risk Management Assessment, its purpose, and how to complete a Risk Management worksheet.
MGMT 103	Resource Management		The Resource Management course will inform JROTC instructors on the process and procedures associated with budgeting, the IMPAC credit card, the Management Control Program, the Command Supply Discipline Program, Battalion logistics, and the Instructor Pay Office.
TNG 101	Service Learning Overview		The mission of the Service Learning Overview Course is to: explain service learning components, share the benefits of employing service learning, describe ways to implement service learning, and supply the guidelines necessary to receive points on your Unit Report.
TNG 102	Scholarships		This course provides an overview of the ROTC Campus Based Scholarship Program.
TNG 103	Consideration of Others		This course provides all assigned JROTC Instructors with information about ongoing Cadet Command human relations training programs. The CO2 program is designed to raise the level of awareness and sensitivity about others, and to promote teamwork and cohesiveness among JROTC Instructors, cadets, school faculty, units and others.
